

Insulated Panels

ROOF & WALL SYSTEMS

Kingspan  forté™

A strong and colourful coating system

Kingspan®

Start with the finish

Kingspan XL Forté™

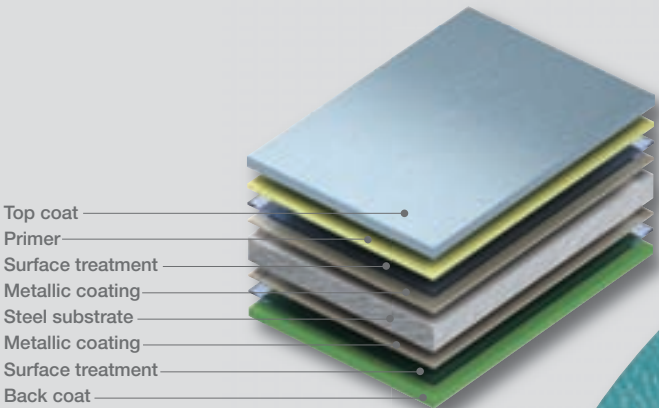

Kingspan Insulated Panels are proud to present Kingspan XL Forté™, a strong, organic coating system in a range of industry inspired colours, which provides premium protection to the building envelope. This new range features enhanced UV protection, greater corrosion resistance and most importantly is covered for up to 30 years with Kingspan's fully comprehensive Total Coating Guarantee.

Kingspan XL Forté™ is designed in accordance with Kingspan's sustainability visions and objectives, and as such, contains no heavy metals, is phthalate-free and is fully recyclable.

This new and exciting coating system presents specifiers with a collection of shades from subtle pastels to vibrant primary colours. The wide variety of colours provide many design possibilities using either individual or a combination of complimentary colours.

Benefits

- Improved UV resistance for advanced colour fastness
- Leathergrain finish in a range of industry inspired colours
- Excellent corrosion resistance, even on cut edges
- Environmentally friendly: phthalate-free, contains no heavy metals
- 100% recyclable
- Maintenance free for up to 30 years

Classic Finish

Kingspan XL Forté™ consists of a multi layer organic coating, embossed with a traditional leathergrain finish which will easily match existing building envelopes.

Properties

Kingspan XL Forté™	
Properties	Phthalate-free organic coating
Application	Roofing, cladding, ancillaries and accessories
Description	
Thickness	Nominal: 200 microns
Gloss (Gardner 60°)	15 – 45 GU %
Appearance	Embossed leathergrain
Performance	
Scratch resistance (Clemen)	≥ 3500 g
Abrasion resistance (Taber)	≥ 30 mg
Impact resistance	Very good (no loss of adhesion)
Resistance to cracking on bending	≥ 1.5 T
Salt spray testing	1000 hours
Condensation resistance	1500 hours
Temperature resistance	Maximum 75°C
UV resistance	Excellent

Please note that the data in the table above are typical properties and should not be used as a specification. Please contact Kingspan **envirocare**® Technical Services for further information.

Colour fastness and UV resistance

The improved properties of Kingspan XL Forté™ provide better gloss retention and weather resistance than most other coatings available on the market. Kingspan XL Forté™'s improved UV resistance fully complies with European RUV4 classification (EN 10169/1 and (EN 10169/2).

Standard coating after testing

Kingspan XL Forté™ after testing

Corrosion resistance

Kingspan XL Forté™ uses an innovative substrate of zinc-aluminium alloy coating 265 g/m² (ZA265) which provides maximum resistance to corrosion on scratches and on cut edges.

Kingspan Total Coating Guarantee

Many manufacturers guarantee their products for specific areas of performance, however, few can offer the comprehensive and broad coverage that is available with the Kingspan Total Coating Guarantee.

Benefits of the Kingspan Total Coating Guarantee:

- Guarantees zero maintenance for up to 30 years
- Offers cut edge protection for full life of the guarantee
- Simple fuss free guarantee administration service means no lengthy questionnaires to complete
- Guarantee is available directly to the property owner and can be transferred
- Applicable to all Kingspan insulated panels and ancillaries down to a minimum roof pitch of 1.5°
- No restrictions applied to the area of surface affected
- Not orientation dependent
- No notice requirement for end of guarantee period

The Kingspan Total Coating Guarantee is your assurance that the coating will not deteriorate in performance.

The Kingspan Total Panel Guarantee is also available which covers the panel and the coating. For further information please contact Kingspan on 01352 716100.

Performance Guarantee Periods

	Inland Roof	Inland Wall	Coastal Roof	Coastal Wall
Symphony	30 Years	30 Years	25 Years	25 Years
Crescendo	20 Years	25 Years	15 Years	20 Years
Vivace	20 Years	25 Years	15 Years	20 Years

Geographical Scope

Zone 1 is covered by the Kingspan Total Coatings Guarantee. For more information on guarantee periods for Zone 2 please contact Kingspan **envirocare**® Technical Services

Sustainability Guaranteed

Sustainability is viewed by Kingspan as one of its core responsibilities. As part of its sustainability objectives, Kingspan is committed to considering sustainability during the design and manufacture, use, and disposal of Kingspan products.

Manufacture

Kingspan XL Forté™ is manufactured with steel, which is durable and recyclable. The organic coating contains no heavy metals and is phthalate-free.

During use

Kingspan XL Forté™ is guaranteed for up to 30 years and is maintenance free for the duration of the guarantee. It does not pose any health or contamination risk to the user or the environment.

End of Life

The product is fully recyclable at the end of its useful life.

Kingspan *ECOsafe* Insulated Panels

Kingspan's **ECOsafe** insulated panels use an environmentally sustainable **FIREsafe** PIR insulation core and specific panels deliver an 'A+' rating according to the Green Guide to Specification. They contain no CFC's or HCFC's, have a low Global Warming Potential (GWP) and have a commercial value for disposal at end of life subject to transport costs.

End of life

Re-use is always the preferred option for all Kingspan **ECOsafe** panels, but if that is not possible these panels are suitable for processing through a conventional shredder plant once they have reached the end of their useful life.

The cost of processing panels through shredder plants is approximately cost neutral with the transport costs from the site being covered by the scrap value of steel.
